AKSYON

KALIKASAN

(ECO ACTIONS PH), INC.

Founded 2014

ECO ACTIONS (Aksyon Kalikasan)

ECO ACTIONS (Aksyon Kalikasan)

education | ecopreneurship | governance

Aksyon Kalikasan (Eco Actions Ph), Inc. is a green leadership institute dedicated in building the capacities of Filipino Greens on education for sustainability, green governance and ecopreneurship

towards realizing the **GREEN AGENDA 2020-2030**

OUR MANTRA ENVIRONMENT FIRST!

After every new leaders are elected, the same economic ideology; fueled by the same greed and elitism, perseveres!

Then comes the rain, the storm, the floods, the erosion of land and soil and the continued massacre of biodiversity and ecosystem at whose foundations lie the basis of our development and yes, survival.

Then perhaps we will realize that the plight of most of us who go hungry and miserable when the land and lakes, rivers and seas produce very little will continue this plight simply because of too much heat and too little rain and because in so many areas now we have stripped the forest, dug up the soil to give way for plantations and mines that benefit us less than the value we are losing.

This time around this will be made worse with the impacts of extreme weather conditions as a direct result of the lifestyles and development of other societies; past and emerging, who continue to deny their fault, will not pay for the cost of damage and will not change their ways soon enough before island nations such as us will go hungry or drown.

Only then will we realize that the most important change that should happen is not yet happening. We ought to realize this and act before our generation would have totally betrayed the next! ENVIRONMENT FIRST!

THE GREEN AGENDA (2020- 2030)

1. Climate emergency actions
2. Organic, safe food & food security
3. Biodiversity conservation in sustainable habitats
4. Sustainable forest cover
5. Swift shift to renewable energy
6. Ecological solid waste mgnt & pollution control
7. Greening human settlements
8. National moratorium on mineral mining
9. Sustainable development by green governance
10. Full protection of “peoples” for self-determination towards sustainable development

VISION

Empowered Filipinos in harmony with nature where the GREEN AGENDA is fully realized and a Philippines where our communities sustainable

MISSION

Aksyon Kalikasan, as a national green leadership institute is a catalyst for partnerships in effective realization of the GREEN AGENDA (2020-2030) through sustainability education, green governance and ecopreneurship for Filipinos

GOALS

From 2020 – 2022, the following should be achieved:

- (1) 45,000 Filipinos aware of Aksyon Kalikasan by end of 2022 with 50% of them have increase awareness on the green agenda and 20% of them have taken actions to realize the Green Agenda (2020-2030)
- (2) Raise at least Php 3.3M by the end of 2022 through project grants and donations to set up 2 green social enterprise for local chapters
- (3) Support the formation of a national green political party by piloting the national & regional Green Leadership Academy (GLA) trainings, regional & provincial assemblies its members and piloting their involvement in direct governance at the Barangay & conservation councils
- (4) Recruit, train and deploy 1,000 members as volunteers & partners in key sustainable development targets to show demonstrated capacities in implementing the Green Agenda (2020-2030)
